Essential Oils Workshop

Tuesday, June 27, 2017
6:30-7:30 pm

More people are using essential oils today. Essential oils are used for everything from pampering yourself to cleaning and helping with various ailments. An essential oil is a fragrant liquid extracted from leaves, twigs, berries, bark, wood, root, flowers, citrus peels, or other plant matter. Essential oils are both exciting and promising when it comes to taking care of your own family's health. Whether you're applying essential oils topically, enjoying the aromatic benefits through diffusing, or taking essential oils internally, the positive effects of essential oils are boundless. Join Milinda McGraw, doTERRA Wellness Advocate, to learn the basics of Essential Oils. You will get to experience the oils with hands-on activities and you

will get to bring home an item as well.
